Departure Of Troops

Forces of the Various Powers Are Being Withdrawn From China.

British Transports Arrive to Carry the Soldiers Back to India.

Expression of Approval of Count Von Waldersee's Tact and Courtesy.

Tien Tsin, May 29.—Two British transports have arrived at Tung Ku to take troops direct to India. Another transport will arrive today to take the Beluchi regiment to Wei-hai-Wei. Gen. Voyron, the French commander, expects, now that the evacuation has been decided upon, that France will countermand the order holding her troops temporarily in China. He anticipates the early arrival of the French transports.

Gen. Lorne Campbell, the British commander here, says the international situation at Tien Tsin is better than at any time since the arrival of the troops, though on the Russian side of the American the Russians objected to the British hoisting their flag on a bridge when the United States flag was taken down, but Gen. Wogack, the Russian commander, withdrew his objections.

Berlin, May 29.—The correspondent of the Associated Press learns that all the powers have accepted Germany's proposition to withdraw Field Marshal Count von Waldersee from China and surrender the chief command. In accepting the proposition, the United States expressed satisfaction that all the powers have accepted Germany's proposition to withdraw Field Marshal Count von Waldersee from China and surrender the chief command. In accepting the proposition, the United States expressed satisfaction that all the powers have accepted Germany's proposition to withdraw Field Marshal Count von Waldersee from China and surrender the chief command.

In German circles the British proposition, that China pay the indemnity by issuing bonds making the interest and sinking fund payable yearly thereon, is now regarded as certain of being accepted. Perhaps the acceptance will be unanimous.

Germany's contingent remaining in Pechihai, it is learned on good authority, will be somewhat over four thousand men. The officials here deprecate the idea that Germany has any private scheme in view in keeping so many men in China. The troops are staying there only as a guarantee for the fulfilment of the peace conditions.

OBITUARY.

A Day's Deaths in Various Parts of the Dominion.

London, May 29.—(Special)—Geo. Moncrieff, K.C., ex-M.P., West Lambton, died at K.C.'s hospital here last night. He had been ill for some time. He was a successful commercial lawyer.

Toronto, May 29.—(Special)—Mrs. Orontyatekha, wife of the head of the I. O. E., is dead.

Kincardine, May 29.—(Special)—Mrs. John McLeod was caught between the wheels of her buggy, the horse becoming restless, and was crushed to death.

Halifax, May 29.—(Special)—City Auditor John A. Bell died suddenly this morning of heart failure.

RAILWAY CHANGES.

President of Baltimore & Ohio Resigns and Successor Elected.

New York, May 29.—At a meeting of the board of the Baltimore & Ohio Railway Company today, Hon. John K. Cowen tendered his resignation as president of the company, to take effect June 1, and Mr. L. F. Loree, now fourth vice-president of the Pennsylvania lines west of Pittsburgh, was elected as Mr. Cowen's successor. Mr. Loree will enter upon his duties on the 1st of June, and it is understood that he will appoint Mr. George L. Carter as his successor.

Halifax, May 29.—(Special)—City Auditor John A. Bell died suddenly this morning of heart failure.

RAILWAY CONDUCTORS.

Party on the Way West Visit Winnipeg.

Winnipeg, May 29.—(Special)—The city has for her guests today 120 representatives of the National Association of Railway Conductors. They arrived by special train, occupying six special Pullman coaches, and arrived in the city at 10 a. m., leaving for the West tomorrow for San Francisco, where the annual convention will be held on June 4. At the head of the party is President Cicero J. Lindley, of Chicago, chairman of the Illinois commission, as well as president of the National Association. They leave for the Coast tomorrow.

IMPERIAL LIMITED.

Summer Train Will Start Running on June 10.

Winnipeg, May 29.—(Special)—The new Imperial Limited time card of the C. P. R. will go into effect on June 10. The trip from Montreal to Vancouver will be made in the same time as last year—100 hours. The train leaves Montreal at 9:30 a. m., arrives at Winnipeg at 1:30 p. m., and will reach Vancouver on the fourth day at 1 p. m.

LEAVES DOWIE.

Methodist Minister Leaves His Connection With Zionites.

Vancouver, May 29.—(Special)—Some time ago W. E. Moody, a Methodist minister, severed his connection with the British Columbia Methodist conference to join David's Zionites. A letter received today from Mr. Moody says that he had severed his connection with the Christian Catholic church and giving his reasons.

NOMINATIONS.

Candidates at North Brant and East Huron.

Paris, May 29.—(Special)—North Brant Liberals have re-nominated the present member, D. Burt, as candidate for the local legislature.

Buenos Aires, May 29.—(Special)—Archibald Bishop, member for East Huron, has been re-nominated at the Liberal convention.

BACK AT WORK.

New Haven Firm Accedes—Strike at Fort Wayne.

New Haven, Conn., May 29.—The machinists employed in the works of Sargent & Co., who have been on strike for ten days, to enforce the demand for a nine-hour day, went back to work, the company having acceded to their demands; 65 machinists are employed in the shop.

Fort Wayne, Ind., May 29.—All the machinists and helpers in the brass foundry and machine works, one of the largest plants in the country devoted to the manufacture of car wheels, struck today for nine hours. The strikers number 150.

BUBONIC PLAGUE.

Man in London Suburb Supposed to Have It Slightly.

London, May 29.—At Willesden, an outlying suburb of London, a man supposed to be suffering from the highest form of bubonic plague, has been discovered. Persons with whom he had come in contact were detained, but have now been released. The patient himself is still under observation.

MONTREAL'S POPULATION.

Expected Census Will Show a Large Increase.

Montreal, May 29.—It is estimated here from figures already in, that the census will show Montreal, with its suburbs, has a population of 340,000.

Intend to See Dawson

Sir Wilfrid and Mr. Sifton Will Visit the Yukon in July.

Census Enumerators Disgusted At Small Pay Allowed By Government.

From Our Own Correspondent.

Ottawa, Ont., May 29.—The ministers are holding daily council meetings preparatory to scattering for the summer holidays. Sir Wilfrid Laurier and Mr. Sifton leave for Dawson about July first.

Charles Drinkwater, secretary of the C. P. R., and G. M. Clark, the company's solicitor, had a long conference with Sir Louis Davies on the subject of forestry rights at Vancouver.

The board of Geographic nomenclature met this afternoon and determined on the correct spelling of a number of places in the Northwest and British Columbia.

Some of the census enumerators in their displeasure at the government for the poor pay, which is being given them, are holding their census returns. As a result, it is likely the total of the population of the Dominion will be delayed. This policy will not help enumerators to get their money, as under the law no returns are in. The government has conceded to the demands of enumerators to this extent, that wherein cases are shown that a man has not been able to earn three dollars per day of eight hours on a basis of five cents per name, the commissioner of the district is authorized to report the facts to the department, when the difference in rate will be made up to enumerators, so that the compensation is not to be less than \$3 a day.

Capt. Bernier, the Arctic explorer is still in the city, but will go east in a few days. He says he is sanguine he will succeed in raising \$60,000 by general subscription for the proposed polar expedition, and that then the government will give him a vessel.

MRS. MARY EDDY IS ON TRIAL

Head of Christian Scientists Defendant in a Libel Suit.

ARBITRATION SOCIETY.

Annual Meeting in New York State Opens.

Lake Mohonk, N. Y., May 29.—The seventh annual arbitration conference assembled today at Lake Mohonk. Two hundred and seven members were present. Chief Justice John H. Stinson, of Rhode Island, was elected president. Dr. Theodore Tilton, a resident of New York, presiding at the conference, asserting that during the last century one hundred and ninety-five cases had been adjusted by arbitration, in which 31 nations were involved. Dr. E. H. Hale emphasized the broadness of arbitration, and a half hour from the great industries favored peace. Edwin Lynn, of Boston, deprecated the Chinese war, but thought it might prove a blessing. He pleaded for a grand international army to act as a police force, and keep the peace of nations. Continuing, he declared he should have a committee to organize a force to cope with the war forces. Addresses were also delivered by Francis Forbes, John B. Gargan, Major M. H. Bright, R. L. Francis, and Alexander T. Wood. The latter read a sympathetic letter from Walter Hazell, treasurer of the peace society of England.

MONTGOMERY MEMORIAL.

Proposed Inscription to Leader of Deceased American Expedition.

Quebec, May 29.—(Special)—The following is the wording of the inscription which is proposed for a bronze tablet to replace the wooden one that marks the spot where Gen. Montgomery was killed in an assault upon Quebec on the 31st of December, 1759: "Here fell Richard Montgomery, general of the continental army, on December 31st, 1759, who, after bravely fighting the victor's march, met his death while leading his gallant men against a gallant foe."

THE FRASER RIVER

Has Risen Six Inches at Yale Since Yesterday Morning.

Yale, May 29.—This afternoon the river was 37 feet above low water mark, having risen six inches since this morning.

RUINED HARVEST.

Germany Will Need to Import Wheat and Rice.

Berlin, May 29.—Germany, in the opinion of the Vossische Zeitung, will need to import 1,500,000 tons more wheat, and 750,000 tons more rice this year than last, owing to the ruined harvest.

Mining Exhibit A Feature

Arrangements to have Appliances
and Machinery in Opera-
tion at Exhibition.

Lease of Race Course and Of-
fered to Agricultural
Association.

During the meeting of the committee of management of the British Columbia Agricultural Association last night at the city hall, with H. Dallas Helmer in the chair, Mr. Cuthbert announced that at the meeting of the mining committee in connection with the fall fair, efforts would be made to have an exhibit of mining machinery in operation, and in fact, a mining display such as should be held in connection with an exhibition in the capital city of a mining province such as British Columbia. Arrangements would probably be made to have a stamp mill in operation, together with samples of aerial tramway, gold saving machines, and other plans, public during connection with the mining industry in British Columbia, that manufacturers could be induced to show, and it was altogether likely that they would enter heartily into any arrangements to that end.

The Hawker Park Company wrote offering a lease of the race course grounds and stables to the association for a period of five years for the purpose of holding agricultural exhibitions, or any special purpose such as reception to the Duke of Cornwall and York, etc., upon the condition that the association expend a sum sufficient to erect a grand stand, repair fences, stables, prepare track, etc., at a cost of \$12,500. The Hawker Park Company being at liberty to use the grounds at all other times, and the company to have the right of nominating judges, stewards, etc., of any races. The finance committee, with the addition of Messrs. Cuthbert, Tolmie, Deans and Clarke, were appointed as a special committee in this connection with power to act.

G. H. Hadwen wrote submitting a list for judging dairy produce, and on behalf of the Dairyman's Association of British Columbia, offered a prize of \$25 for the best registered bull of the dairy breeds on the grounds, and \$25 for the best cow giving the most butter, fat, Babcock test, during 48 hours of the exhibition, the conditions being that any animals may be fed, competition to be open, and cows to stand in view of the public during competition, and competing animals to be milked at 6 a.m. and 6 p.m., under direction of officer in charge of the same at 6 p.m. of the day previous to the test. The list for judging dairy produce submitted by G. H. Hadwen and the officer of special prizes was received with thanks and referred to the prize committee.

Mr. Hadwen also wrote that the Dairyman's Live Stock Association propose to hold an auction of pure bred stock at the Victoria during the exhibition, and inquired if the association could furnish stabling for the stock, which would consist of about 37 head of cattle, 20 pigs and 35 sheep. The offer made to milk this stock a feature of the exhibition was accepted with thanks.

Mr. Charles E. King, secretary of the Victoria Farmers' Institute, wrote amending his offer of prizes as follows: Special prize of \$15 for the cow that gives the most butter, 3 days' test. Special prize of \$10 for the best draft sucking cow. Received with thanks and referred to the prize committee.

The Lake of the Woods Milling Company offered four prizes of two barrels, one and a half barrels, one barrel and one-half barrel of flour, respectively, for the best home-made bread. Accepted with thanks.

R. E. Gosnell, secretary of the Natural History Society wrote that at a meeting of the society held on May 13, it was decided to offer a prize of \$10 for the best collection of mineral specimens, \$5 for the first prize, if three entries; \$3 for the second prize, if five entries; and \$2 for third prize, if seven entries. Accepted with thanks.

Miss Cameron reported that Mayor Hayward had announced his intention of giving a special prize for the best drill among the school boys on the occasion of the visit of the Duke and Duchess of Cornwall and York.

The Hinton Electric Company reported on the electric arc lighting dynamo, lamps and wiring in the exhibition buildings. The dynamo will have to be overhauled and tested. The lamps will have to be thoroughly cleaned and tested. The wiring will require putting in shape and new shades and lamps are needed.

Referring to the Persia loan, the secretary read an agreement made between himself on behalf of the association and F. A. Mackenzie, an advertising agent, whereby Mr. Mackenzie is to solicit advertising for the prize list, the advertisement being published in the Outlook after the cost of printing is paid. A letter was also read from the Outlook asking for advertising from the association.

Adjournment was reached about 10 o'clock.

TO DEPOSIT THEM.

Chinese Caught Entering the States to be Shipped Away.

Ozonsburg, May 29.—The cases against fifty of the ninety-nine Chinese held in the county jail for unlawful entry into the United States, closed here today. Decisions have been rendered in 25 cases, in 20 of which deportation back to China is ordered. A large percentage of the remaining cases will carry deportation. A strong point argued by the government, is that certain papers are stated, at which Chinese men entered the country. North Burke on the border, where all these Chinamen are arrested, is not such a port, where they are here unlawfully. These Chinamen were arrested last February.

Soda Creek, B. C., May 29.—At 8 p.m. the river is up to last year's high water mark and still rising.

McGOVERN WON.

San Francisco, May 29.—McGovern in the fight tonight, knocked out Herrington in the fifth round.

Reviewing Parliament.

Principal Features of the Session That Recently Closed at Ottawa.

New Leader of the Opposition Has Been a Happy Choice.

From Our Own Correspondent.

Ottawa, May 25.—The parliamentary curtain is down until next year. Practically all the legislators have left for their homes, and the halls of legislation are deserted.

At the beginning of the session in this correspondence allusion was made to the "agencies of the parliamentary bill of fare, and after four months' work it does not appear that the government itself is prepared to claim that it has accomplished much in the way of useful legislation. Take, for instance, the speech from the throne dismissing the law makers. It alludes to the Victoria Day bill, the credit for which is due to your own Senator MacDonald, and which public opinion throughout the country, forced the government to pass. Then, reference is made to the establishment of a bureau of the royal mint, another measure for which Canada, and especially British Columbia, has been pressing during many years. Of course, the location of the mint in Ottawa must be a great disappointment to the people, who have been anxious to see the great enthusiasm by the inspiring battery of "Maxwell and the Mint." There is to be a salve to British Columbia's wounds by the establishment of an assay office, and Vancouver's cup of sorrow will be full to overflowing when this assay office is established in Victoria. Senator Tompkins, who is still in the East, is very much disappointed at the manner in which the government has treated British Columbia in the matter of railway subsidies, and is determined to capture the assay office for the provincial capital.

Another measure referred to in the speech is the settlement of the claim of Prince Edward Island for damages arising out of the alleged non-fulfillment of the terms of the union in respect to keeping up communication during the winter. This proposal was severely criticized by the opposition, who contended that the terms of union had been more than fulfilled, and that the government had made no effort to keep up communication during the winter. This proposal was severely criticized by the opposition, who contended that the terms of union had been more than fulfilled, and that the government had made no effort to keep up communication during the winter.

One of the features of the session which has just closed is the strength developed by the leader of the opposition, Mr. R. L. Borden. He is in every respect a great man. Little has been said of the struggle which took place in the party ranks when the Conservatives met here the day before the house opened. There was a great diversity of opinion among the members of the party, and the opposition was divided into two camps. One camp was led by Mr. Borden, and the other by Mr. T. A. B. Borden. The opposition was divided into two camps. One camp was led by Mr. Borden, and the other by Mr. T. A. B. Borden.

not hauled down. In this action he was quite exceeding his authority. The Lords Commissioners of the Admiralty in 1892, after representations from Canada, issued the following order:

"Whereas we deem it expedient that Canadian registered vessels shall be permitted to wear the red ensign of Her Majesty's fleet with a Canadian coat of arms on the fly thereof;

"We do therefore, by virtue of the power and authority vested in us, hereby warrant and authorize the red ensign of Her Majesty's fleet with the Canadian coat of arms on the fly to be used on board vessels registered in the Dominion."

It may interest Canadian shipowners to learn that in accordance with the permission granted by the Admiralty warrant, the following regulations of the Dominion government are in force:

"1. The area of the shield shall in no case exceed one-fourth the area of the Union Jack, and shall be placed centrally in that part of the flag which is beyond the Jack."

RAILROAD SPECIAL AGENTS.
Continental Gathering Being Held at New York.

New York, May 29.—At a meeting of the special agents of the United States and Canada, held at the Hotel New York, W. G. Baldwin, of Roanoke, Va., was elected president.

MORE FIRMS SETTLE.
In Buffalo and Hartford the Machinists Win Their Fight.

Buffalo, May 29.—Representatives of the Howard Iron Works and of the 200 striking machinists, formerly employed by the firm, reached an agreement tonight. The settlement is a compromise. The men will get a permanent nine-hour day after September 1, and they were given a 10 per cent. increase in wages.

Fish river, May 29.—The Pore Bicycle Co. and the Pratt & Whitney Co. tonight notified the striking machinists and metal workers that commencing Friday, both shops would be run on the basis of 9 hours work for 10 hours pay.

FROM HOME.
Musher Arrives With News of the Far Away Camp up to April 4th.

L. L. Bates, a mail carrier, has arrived at Seattle from Nome, in charge of the gold digger of April 4th. The gold digger of April 4th states that the body of Hank Stewart had been found near the headwaters of the Fish river, and is now in the hands of the remains of his partner, Welch, was discovered. Stewart was in the employ of the Pore Bicycle Co. and the Pratt & Whitney Co. Both men were frozen to death in the blizzard that swept over the Nome region.

L. M. Hamilton and John McCallan, who left Nome early in December on the trail of the Pore Bicycle Co. and the Pratt & Whitney Co. were unable to say how severe the cold was, but it was no more intense than the cold in the Pore Bicycle Co. and the Pratt & Whitney Co. Both men were frozen to death in the blizzard that swept over the Nome region.

Another measure referred to in the speech is the settlement of the claim of Prince Edward Island for damages arising out of the alleged non-fulfillment of the terms of the union in respect to keeping up communication during the winter. This proposal was severely criticized by the opposition, who contended that the terms of union had been more than fulfilled, and that the government had made no effort to keep up communication during the winter.

the doors of subscribers.

THE POINT ELLICE BRIDGE.

The presentation of the Grand Jury
in regard to the Point Ellice Bridge
will force that important question once
more to the front in municipal affairs,
and we understand that it is to be fol-
lowed up by the presentation of petitions
to the City Council on the same subject.
A short time ago the Council of the
Board of Trade had the matter up, but
decided to leave it to be dealt with by
a full meeting of the Board. Although
the facts of the case are familiar to
most people, it may be well to review
them.

The present bridge was built to re-
place that destroyed in the lamentable
accident of 1896, and is avowedly only
temporary in its nature. Permission was
granted by the Department of Public
Works to construct such a bridge only
on the understanding that it should be
regarded as temporary. To build such
a permanent structure as will meet the
requirements of traffic will cost in the
neighborhood of \$60,000. The fact that
the bridge is, on the line of the Esqui-
malt car service, and that the travel to
the naval station calls for the use of
large cars, makes it imperative that the
bridge, if it is to remain the principal
artery of travel to Esquimalt, shall be
of a stronger nature than might be re-
quired if only the traffic of the city had
to be considered. If the requirements
of Victoria West alone had to be taken
into account, the present bridge would
do for a time. It is contended that in
view of the moral responsibility alleged
to rest upon the Provincial government
in connection with the disaster to the
other structure, the Provincial Treasury
should meet a part at least of the cost
of replacing it. So far the application
for such aid has not met with encour-
agement. It is also contended that, in
view of the expected settlement of the
Songhees Reserve question, and the
opening of that tract to occupation, it
is not well to determine to erect a more
costly structure at Point Ellice than the
demands of a portion of the west side
of the city call for, because it will be-
come necessary to build a bridge at the
foot of Johnson street any way and this
will give the shortest and best route
to Esquimalt. Those who make this
contention say that present require-
ments can be met by strengthening the
existing bridge, and thus postpone the
expense of a permanent structure until
a more convenient season. We think this
is a fair statement of the case, and also
that the issue presented by it is not very
easily settled.

We suggest, however, that there is
another phase of the question which will
greatly aid in solving it. It is admitted
that a bridge at Point Ellice is a neces-
sity, no matter what may be done with
the Songhees Reserve. It is admitted
also that the present bridge is only tem-
porary, and must ultimately be replaced
by something better. Would it there-
fore not be wise to erect there a struc-
ture that will be of a permanent nature
and equal to any probable requirements
of the future? The proposed bridge at
Johnson street can be left until the
need of it arises, which undoubtedly will
be as soon as the Reserve is thrown
open. But let us deal with the facts
as they exist, not import into the dis-
cussion elements that have not arisen,
and which, when they do present them-
selves, may come up in a different form
to what we now imagine. There will
be needed sometime, and not at a very
distant date, a first class bridge at Point
Ellice. Is it not better to provide for
it now, rather than patch up the pre-
sent one and replace it with another
later that will not be quite what it ought
to be. If there is to be a permanent
bridge at Point Ellice, to be used by
street cars, it ought to be equal to any
traffic likely to arise within the city
limits. It will do no harm, even when

the bridge is put up at Johnson street,
to have another at Point Ellice equally
strong, for surely it would not be wise
to have only one line of communication
between the city and the Naval Station
capable of carrying large cars. As for
the matter of government aid, if this is
not forthcoming for the Point Ellice
Bridge, let the city file its claim and
urge its recognition when the Johnson
street bridge comes up for considera-
tion.

A STRANGE PROCEEDING.

The public are not supposed to know
what transpires in the Grand Jury room
but a good many people would like to
know why the bill against the Savoy
was thrown out. Rev. Mr. Hughes, who
instituted the prosecution, was informed,
he says, by the counsel for the ac-
cused, that a plea of guilty would be
entered when the indictment was found,
and he was asked to intercede to secure
as light a punishment as possible. With
this object Mr. Hughes called upon the
presiding judge. It is not surprising
that under these circumstances the ac-
tion of the Grand Jury was regarded
with astonishment by the judge, the
prosecution, and the defence.

It is no part of the duty of the Col-
onist to reflect upon the manner in which
citizens discharge their sworn duties in
any instance, but the facts as stated
above create an unpleasant sensation.
If they are correct, it seems as if there
is need to cultivate public sentiment
along certain lines, so that there will
be no chance that persons, who are
ready to admit themselves to be guilty
of an offence, will be acquitted of
any responsibility by what transpires in
the secrecy of the Grand Jury room.

HOW HISTORY IS MADE.

The Canadian Gazette is usually re-
liable, but it had a reference to the late
Sir E. Watkin the other day, which
shows how the facts of even recent
history are distorted. After reading it
we felt like quoting the writer who
said: "O, it's history is it? Then I
know it is not true." The sketch tells
of Sir Edward's services to Canada in
connection with the Intercolonial rail-
way, and says:

The federation of Canada's five pro-
vinces in one Dominion was being en-
couraged by the government, largely
with a view of the Imperial significance
of a project for connecting the Atlantic
and Pacific coasts by an intercolonial
railway. Such a railway, it was
thought, must be the future highway
between Great Britain and most of her
important colonies in the Pacific Ocean.
It might have great importance from a
military point of view, and above all
it should prove to be a trade route—the
shortest way from England to China,
Australia, and New Zealand, and a
safer and cheaper way than that which
involved the great distances of Gibraltar,
Malta and Aden. This was its aspect
before the days of the Suez canal. The
Duke of Newcastle's choice of Mr. Wat-
kin was a wise one. He examined the
route, reported favorably on the project,
and did much to advance it.

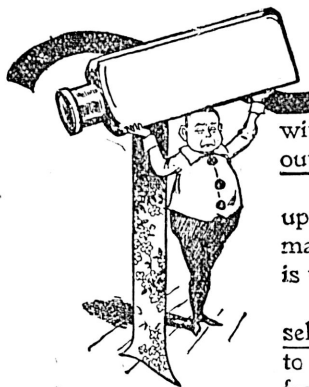

The first error we note in this is that
the federation of Canada's five pro-
vinces was being encouraged. At the
time referred to Canada had only two
provinces, namely, Upper Canada and
Lower Canada. The effort made by the
Imperial government was to confederate
six provinces namely: Upper Canada,
Lower Canada, New Brunswick, Nova
Scotia and Newfoundland, but it was
only successful in respect to the first
four. The second error is that the fed-
eration was being promoted to secure
an intercolonial railway from the At-
lantic to the Pacific. It was promoted
by the Colonial office chiefly in the hope
that the union with the English-speak-
ing Maritime Provinces would put an
end to the friction between Upper and
Lower Canada. New Brunswick, Nova
that the Intercolonial railway should
extend from the Atlantic to the Pacific,
and all the fine talk about its Imperial
value in which the Gazette indulges is
mere tommy-rot. The design of the In-
tercolonial was to connect the Maritime
Provinces with the Canadas, as they
were then called. It was first proposed
about 1831 by John Wilson, of St. An-
drew's, N. B. It was discussed repeat-
edly and in 1852 Sir Francis Hincks
went to the Maritime Provinces on a
mission connected with it. It was re-
garded as a commercial necessity by all
the British North American provinces,
and the Maritime Provinces absolutely
refused to enter the Confederation un-
less the construction of such a line was
provided for.

The statement that Sir Edward Wat-
kin examined the route and reported
favorably upon the project is very
amusing. Upon what route is he sup-
posed to have reported? If the Gazette
means the route of a railway from the
Atlantic to the Pacific, it is ludicrously
astray, for this was never examined by
any one for years after his visit to
Newcastle. If what is meant is the
route of the Intercolonial railway as
afterwards built, we fancy that his re-
port had very little influence one way or
the other. He came to Canada, so the
writer of the sketch says, before the
Trent affair. The latter arose in 1861,
and it was at least seven years after-
wards that the route of the railway was
decided by the Parliament of Canada,
and while military considerations had
something to do with its location, the
influence of Quebec had even more.

The last surrender of Boers looks sus-
piciously like a case of coming in to
be taken care of. Really, if it were not
for a few obliging Germans and Ameri-
cans, the world would never know how
terribly we are using the burghers and
their families. The burghers do not ap-
pear to know it themselves. They fight
until bad weather sets in, and then they
bring in their wives and children and
surrender to our troops to be housed,
fed and generally taken care of. But our
critics insist that we are being guilty
of the most frightful atrocities, and
even some of our own people, who
certainly should know better, repeat
these foreign slanders.

The many friends of Lieutenant-Gov-
ernor, Sir Henri Joly were glad to see
him on the street again yesterday after
his holiday in Southern California, and
all the more so because he looks so very
well. He himself says that he is greatly
improved by his trip, and he has many
pleasant things to say about get-
ting back to Victoria at this charming
time of the year.

SHOE BALANCE

HE shoe of choice upper leather,
with fine appearance, and poor insole or
outsole, is only as good as its worst part.

The life of a shoe depends as much
upon the invisible portion—the hidden
material and labor—as upon that which
is visible and showy.

Yet all shoes are made primarily to
sell, and the manufacturers' temptation
to add to selling effect, by subtraction
from wear is great, and rarely resisted.

A direct responsibility from Maker to Wearer is the only check
upon this extravagant tendency.

That responsibility is easily crept out of, unless the Maker
(not the Dealer) sets the price, and stamps it on the sole, with his
trade mark.

Thus priced, it is a distinct "promise to pay" so many dollars
worth of shoe value, and pledges shoe-balance, uniformity of
material, wear, permanent satisfaction.

No Canadian shoe but "The Slater Shoe" is thus pledged.

When you buy "Slater Shoes" you can rely on their being
just as good as they look—inside and outside.

The Slater Shoe Makers dare not make superficial
"window" shoes.

Goodyear welted, and priced on the sole, in a slate frame.—
\$4.00, \$5.50.

"The Slater Shoe"

J. Fullerton & J. H. Baker, Sole Local Agents.

His reputation for veracity is good.
He is an ornament to a learned profes-
sion. He has long been a resident of
this city. He said yesterday that until
advised to the contrary he was prepared
to make affidavit that one of his hens
had hatched eleven chickens out of nine
duck eggs. The demoralizing influence
of chicken raising are frightful. Large,
serious men, with whiskers and dignity,
will pause in an animated discussion of
important business to swap experiences
about chickens, and it will be noted that
no matter how astounding a story the
first man tells, the other always beats
him. We suggest as a theme for pul-
pit discussion the immoral tendency of
hen culture.

The Times refers to Mr. Francis
Wayland Glen as a "renegade Cana-
dian." This hardly does Francis full
justice. He was born in the United
States, and his father was an American
citizen. He became a British subject,
and has since returned to his original
allegiance. Whatever his citizenship
may be, there is one thing sure about
him, and that is that he is a fitting
colleague for Ananias.

The Nanaimo Board of Trade has
done the right thing in putting up the
cost of a survey of a newly discovered
pass, by which it is claimed a route for
a railway can be found to Alberni.

Russia has failed to get her fingers
on Persia as she expected, through the
instrumentality of a loan. Persia is one
of the prize regions of Asia. Some day
it will be opened by modern methods.
It has immense resources and occupies
an important strategic position.

Navigation has begun on the Yukon.
The season promises to be remarkably
busy, and it will only be the first of
many remarkably busy seasons.

The city authorities will probably feel
called upon to do something with the
Johnson street ravine.

The British government seems after
all to have had its own way in the set-
tlement with China. In view of the fact
that, our enemies being the judges, the
British Empire has become "une quanti-
te negligible," this would seem re-
markable. But it appears to be that
the only people who do not feel able to
neglect the wishes of our government
are those who have the decision of mat-
ters of foreign policy in other capitals.

The quick trip of the Islander to and
from Skagway will greatly popularize
that splendid steamship with Northern
travellers, and in consequence add much
to the transient business of Victoria and
Vancouver. The Islander will without
doubt be the most popular of the large
fleet on the Skagway run.

Compulsory pilotage having been abo-
lished as far as Nanaimo is concerned,
the next step will probably be to do
away with it on vessels entering Victo-
ria. What are the arguments in favor
of retaining it?

BLACK BASS.

To the Editor.

Sir,—I notice in this morning's Colonist
that in Ontario the lakes, etc. are being
restocked with black bass, that the Grand
Trunk railway has supplied specially pre-
pared cars for transportation purposes.
Now, as an old Eastern Canadian fisherman,
I would like to see such a movement made
to stock some of the beautiful B. C. lakes.
I have no desire to underestimate the
sporting qualities of the B. C. trout, but
to my mind, the Eastern small mouthed
black bass, for real sport, is away and be-
yond the funny trout, and deliciously tooth-
some eating. Besides I enclose my name
and address and will gladly subscribe \$20
towards such a movement.

MONTREAL.
N. H. Our popular senior member would
be the one to make such a move a success,
combined with Messrs. Earle and Prior.

Teacher Now, Tommy. If your father
had a \$5 note, and he gave it to your moth-
er to take out \$2 for herself, what would
be left?

Tommy (promptly) Pa.—Philadelphia
Press.

Yes, come of a good family, I believe.
Yes, very. An ancestor of hers was
beheaded by the tower during the reign of the
fourth Edward!

How perfectly lovely

You Are Not Sick
But Feel Miserable.

Nearly everybody seems to complain more or less at this season
of the year. You feel the need of some tonic to put new strength
and energy into the system. You don't sleep well, and suffer more
or less from headache and dyspepsia. It may be you are depressed
and discouraged, and feel the affairs of every-day life a burden.
Little things worry and irritate you. You are not sick, but lack the
vitality that is necessary for health and happiness.

There is one preparation which is doing wonders these days as
a restorative and nerve invigorator, and that is Dr. Chase's Nerve
Food. It is different from any medicine you ever used, for instead
of tearing down the tissues of the body it builds them up, and so
thoroughly fills the system with new life and vigor as to overcome
pains and aches, weaknesses and irregularities. It is surprising what
a host of people are using this great food cure. A few weeks' trial
will convince you of its singular merit.

Dr. Chase's Nerve Food

50 cents a box. Six boxes for \$2.50. All dealers, or Edmonson, Bates & Co.,
Toronto.

Agent wanted for Dr. Chase's Last and Complete Receipt Book.

C. C. REVANS

84 Government Street, Victoria B.C.
Agents in England—Downsett, Knights & Co., London, publishers of the "Land Roll" Issue 5,000 copies.

W. C. T. U. Meeting.—A meeting of the Central W. C. T. U. will be held this afternoon at 3 o'clock at the Refuge Home, Courtyard street.

Boys Wanted.—A few additional hands are wanted for light work in the Colonial vanishing room. Apply to the superintendent of the printing department.

To Go Into Camp.—Authority has been received for the Fifth Regiment to go into camp this summer. The date and other arrangements will be made later.

Northern Freight.—A heavy shipment of goods for Dawson was made yesterday by Messrs. Lenz & Leiser. The freight goes North by way of Seattle per steamers Rosalie and Dirigo.

Drinks and Cigars.—The Princess of Wales saloon, at the corner of Herald and Government streets, was broken into on Sunday night and a box of cigars and some liquors stolen. Entrance was gained by breaking the rear door.

Been There Before.—The police have received from Portland a picture of P. K. Dahl, who was on Tuesday sentenced to two months on six counts of forgery. Dahl served two terms in the Oregon jail for the same offence. The sentence he received here is considered an extremely light one for the crime committed.

Old Fellows' Anniversary.—It has been decided to hold the annual memorial day celebration of the I. O. O. F. on June 16. Definite arrangements will be made at a meeting of the general committee on Monday evening, at which delegates will be present from the Federated Board and sister societies wishing to take part.

Plans Filled.—The plans of the Grand Forks and Kootenai River bridge have been filed with the lands and works department, and work on the road, which is to be 16 miles in length, will be commenced at once. The chief object of the line is to carry the ores of the Republic camp, in Washington, to the Granby smelter, at Grand Forks.

Short Session.—Yesterday morning's session of the police court was a short one. There were a couple of drunks, who were taxed \$5 each, and a bicyclist, who paid \$3 for riding at night without a light. H. J. Hansen, summoned for refusing to pay his revenue tax, did not appear, and a warrant was issued for his arrest, and a commitment made out for his detention for ten days of the tax is not paid. Hansen has left the city.

Died at Alberni.—Major Ross Moore received news last evening of the death at Alberni yesterday, of his mother, Mrs. I. Moore, widow of the late H. G. Moore. The deceased was a native of England, and was 72 years of age. Besides her son she leaves two daughters, Mrs. Guilford of Alberni and Mrs. Williams of Comox. The funeral will take place at Alberni on Friday, from the residence of her daughter, Mrs. Moore came to Victoria in 1892, and resided here until last October, when she went to Alberni.

Second Charge.—J. Davis, who was sentenced to two months with hard labor for stealing a diamond brooch from the store of Mr. C. E. Redfern, has to answer to a second charge of stealing. When he was searched upon entering the provincial jail, a gold brooch was found, concealed upon his person. This was handed over to the city police, and they learned that it had been stolen from Messrs. Challoner & Mitchell's store, and have consequently sworn to an information, and Davis will appear in the city police court this morning. The finding of this brooch shows that Davis had pretty well worked the city before he was arrested, for as will be remembered, he had a chain which he admitted having stolen from Mr. J. Wagner's store. He was presented on this latter charge for the reason that he told where the chain had been stolen from.

McGill University. The annual calendar of McGill University, Montreal, has been issued and is a most interesting and important work being done by this great educational institution. A feature of the publication is the large number of excellent illustrations of portions of the various buildings, interior and exterior, which show at a glance the magnificent facilities not only for research and theoretical teaching, but for giving students the most thorough practical training. Glimpses of the smithy and foundry show the young men at work, while the electrical, mining, machine shop, pattern shop and various other departments of applied science are as bewildering and extensive as those of huge industrial establishments. Arts, medicine, applied science, law and veterinary science have each their special buildings and lecture rooms, equipped with all the advantages that money can purchase. Full particulars are given for the guidance of intending students.

OFFICIALS MAY VOTE.
Disenfranchisement Clause of the Semi-Union Election Act Repealed.

During the closing hours of the late session of the legislature, a bill was passed which means much to the civil servants throughout the province, as it restores to them their franchise. It will be remembered that the Semi-Union government had a clause inserted in the Provincial Election act as follows:

"25. No judge of the supreme or county court, no sheriff or deputy sheriff, no employee of the Provincial government who is in receipt of salary of at least three hundred dollars per annum, no sailor, marine or soldier on full pay in the Imperial service, and no officer in the Imperial service on full pay, shall be entitled to have his name placed upon the register of voters for any electoral riding. This subsection shall not apply to ministers of the crown, Mr. Speaker, members of the Legislative assembly, or school teachers."

The last clause in Mr. Helmcken's bill to further amend the act, passed at the last session, repeals the disenfranchisement clause of the Semi-Union government act, and now those who were deprived of their votes are again on an equal footing with other citizens.

VICTORIA CREAMERY.
General Meeting of the Association Held Yesterday Afternoon—Election of Officers.

A general meeting of the Victoria Creamery association was held yesterday afternoon when arrangements were made for the opening of the new creamery for business on Monday. The election of officers also took place. Mr. J. R. Carmichael was re-elected president; Mr. J. Shoppard, vice-president, and Messrs. S. Deans, Edwin Johns, S. H. Baekke, Tanner and C. Brooks, board of directors. Several propositions were made by local dealers to handle the product of the creamery, some on a 4c per lb. basis, and others on the basis of a cent a pound. It was decided to handle the product direct from the creamery for three months at least.

Smart Wood and Belladonna, combined with the other ingredients used in the best severe plaster, make Carter's S. W. & R. Backache Plaster the best in the market. Price 25 cents.

Little Boys Overalls

Just now the problem of keeping the little boys' clothes clean presents itself. Several overalls are extra quality, double sewn seams, put on and off with the button and eye hooks. They won't tear them and the price only 50 cents.

Mr. Bremner Addresses Meeting of Workers to That End Without Avail.

Efforts are being made by E. P. Bremner, labor commissioner, to induce the boiler-makers to agree to work on the steamer Garonne, which is to be repaired here, and owing to the refusal of the boiler-makers to touch her, was returned by her owners to Seattle, where she is lying tied-up because of the inability on the part of her owners to secure the necessary repairs to enable her to resume service. The steamer is no nearer being returned to Victoria at present than she was when she was towed back to the Sound, the matter remaining as it was in statu quo, for the boiler-makers still refuse to do the work on the vessel even if she were brought here. A meeting was held by the boiler-makers on Tuesday night at which Labor Commissioner Bremner was present, and expressed his views as given some time ago, to the effect that the boiler-makers were making a great mistake in refusing to do the work on the Garonne. The majority of the boiler-makers present held contrary views to the Labor Commissioner's, and expressed their feelings, and he and the local representative of the Dominion Labor Gazette, who accompanied him, withdrew. The local union of boiler-makers decided to ask for an eight-hour day for \$3.50, both inside and outside of the shop, and it is understood that the employers of iron workers in the city have been notified of this offer. The majority of the boiler-makers are going the other way, for the strike on the Sound one better, for the strike on the other side of the line is for nine hours in the shop, and eight hours a day on outside work.

Efforts have not been abandoned for a settlement of the difference, and it may be that an arrangement will be reached whereby the Garonne can be brought here for repairs. It is probable that a committee consisting of President P. H. Loez, of the Trades and Labor Council, or other recognized labor leader, and a delegation of boiler-makers will go over to Seattle today to endeavor to come to an arrangement with the Seattle executive, which the local branch of the boiler-makers union will be allowed by the International union, the executive of which in the east has, it is understood, promised to give its permission for the carrying on of the work in the city on the Garonne. The permission of the Seattle executive is obtained to that end.

The history of the Garonne affair has already been gone over fully in these columns. The steamer was in need of repair work to her engines and engine room, and the work was given to Moran Bros. But two furnaces had been completed out of sixteen when the machinists and boiler-makers went out on strike at Moran's, and the steamer was tied up. Having contracted 120 passengers, and a full cargo of freight for Nome, F. Waterhouse wrote to the Albion Iron Works of Victoria and offered the remaining work to the Albion Iron Works. Manager Waterhouse called in a representative of the machinists, boiler-makers and iron-molders unions and laid all the correspondence before them, and on their agreeing on the part of the steamer, which was shown to the representatives agreeing to take over the work. The next day the Garonne was towed here, and then the boiler-makers refused to work on the vessel, although they had given their word that they would do so. The union had declared the Garonne a "scab" job, and they could not therefore work on her. Meetings were held, and efforts to come to an agreement made without avail, the union had declared a boycott on the vessel and the workers could not disobey the mandate of the union. Then the steamer was towed back to Seattle and tied up. And thus the matter stood, when Labor Commissioner Bremner arrived, and a telegram, which was shown to the representatives agreeing to take over the work. The next day the Garonne was towed here, and then the boiler-makers refused to work on the vessel, although they had given their word that they would do so. The union had declared the Garonne a "scab" job, and they could not therefore work on her. Meetings were held, and efforts to come to an agreement made without avail, the union had declared a boycott on the vessel and the workers could not disobey the mandate of the union. Then the steamer was towed back to Seattle and tied up. And thus the matter stood, when Labor Commissioner Bremner arrived, and a telegram, which was shown to the representatives agreeing to take over the work.

Local News.

Vags Arrested.—Two vags, who arrived from Seattle on Tuesday, were placed under arrest yesterday by the city detectives, to keep them out of the way of any temptation that they might fall into.

A Stamp Mill.—News was received by the Islander that a stamp mill is on the wharf at Skagway waiting to be transported to Atlin, where it will be installed at the Redman mine, located on Taku arm. It is only an experimental outfit, consisting of a one-stamp mill, a rock crusher, sluice box, silver plates, etc., but marks the opening of an era of development in the lake country.

Are After Him.—The police have been asked by the surety company that provided the bonds for George Lightner, the absconding agent of the Northern Pacific railway to use every endeavor to arrest him. They have traced him from the time that he left Vancouver on the Islander train on Saturday, and are expecting to receive news of his arrest at any minute. An effort, it is said, was made to settle the matter, but the surety company declined to listen to any proposition. As is always done in cases of the kind, the police will make good the shortage and seek to bring the offender to justice. It was stated yesterday that the shortage would amount to about \$1,200.

Third Degree and Social.—There was a full lodge room last evening to witness the third degree exemplified by the team of Columbia lodge, I. O. O. F., and the work was well done, and much enjoyed by the spectators as well as the participants. After the business of the lodge had been disposed of, tables were brought in and spread in the hall, and about 75 or 80 members of the order sat down to partake of the good things prepared by the entertainment committee of No. 2 lodge, the chair being taken by Bro. James Pottinger, D. D. G. M., moving to the indisposition of the order grand. Some good speeches followed, interspersed with songs, and a spirit of late competition was discussed, the winning team toasted, and warned to look to their laurels, as Columbia lodge did not intend to rest under the stigma of defeat. The gathering broke up at a late hour, after singing "Auld Lang Syne," and "God Save the King."

PROCRUSTINATOR'S LULLABY.

The letter that I ought to write And put off day to day, The work I ought to do, The social favors that I owe, And should return some way, I think I ought to write—high-o-o!

The sick I ought to go to see, The garments I should mend, The books I promised to return— Oh, torments without end, They all rise up like skeletons And mock me, but some way I think of them and yawn—high-o-o!

The little good I ought to do, The friends I ought to love, The week I should lend succor to, All in my mind arranged, March merrily to and fro, I sit and dream and yawn—high-o-o!

The preparations I should make For better life some day, The medicine I should take, The prayers I ought to pray— They troop before me to and fro, I have contracted 120 passengers, and a full cargo of freight for Nome, F. Waterhouse wrote to the Albion Iron Works of Victoria and offered the remaining work to the Albion Iron Works. Manager Waterhouse called in a representative of the machinists, boiler-makers and iron-molders unions and laid all the correspondence before them, and on their agreeing on the part of the steamer, which was shown to the representatives agreeing to take over the work. The next day the Garonne was towed here, and then the boiler-makers refused to work on the vessel, although they had given their word that they would do so. The union had declared the Garonne a "scab" job, and they could not therefore work on her. Meetings were held, and efforts to come to an agreement made without avail, the union had declared a boycott on the vessel and the workers could not disobey the mandate of the union. Then the steamer was towed back to Seattle and tied up. And thus the matter stood, when Labor Commissioner Bremner arrived, and a telegram, which was shown to the representatives agreeing to take over the work.

Since you're my friend, a valued friend— I don't mind telling you, To do 'em all I ought to do, The tasks I ought to do, I thought this morning this way, The day, but now, some way I've tried, I don't believe—high-o-o!

LOSS OF APPETITE. A person that has lost appetite has lost something besides—vitality, vigor, and health. The way to recover appetite and all that goes with it is to take Hood's Sarsaparilla, that strengthens the stomach, perfects the digestion, and makes the blood pure. Thousands take it for spring loss of appetite and everybody says there's nothing else so good as Hood's.

Farming Lands

597 acres of farming land near Mud Bay, on the Delta of the Fraser. This property has over 100 acres in crop, and contains some high wooded land, but principally consists of rich, low bottom land, of which there are about 400 acres.

This can be made into a magnificent farm with the expenditure of a little capital and work, and is for sale at a low figure.

THE SCHOOL TRUSTEES.

Abbreviated Sitting Last Night to Deal With Educational Affairs.

The session of the School Board last night was a short one, the business of the evening having been exhausted and adjournment reached by 9 o'clock. Chairman Hall was unable to attend, so Trustee Ely was voted to the chair, and the work of the evening was taken up.

A communication from the principal was read asking permission to accept the following sizes, which had been offered to the High school, viz: A model for English history, offered by C. E. Redfern, Esq.; a prize for Canadian history offered by Trustee Drury, and a third for English subjects by a donor who did not wish his name to be made public. This last named prize would be a complete edition of Stephenson's works.

Superintendent Eaton pointed out that rule had been adopted some years ago that individual prizes be discouraged in favor of class prizes, but last year this rule had been ignored. It would be well for the board to decide on a line of conduct in this connection. It would be impossible, however, to have class competition in the High school, viz: A model for English history, offered by C. E. Redfern, Esq.; a prize for Canadian history offered by Trustee Drury, and a third for English subjects by a donor who did not wish his name to be made public. This last named prize would be a complete edition of Stephenson's works.

The buildings and grounds committee handed in a report in connection with the repairs to the Kingston street school. It was ordered that the work be carried out during the coming holidays.

The superintendent was authorized to procure a suitable stand for the school trophies won by the classes on various occasions.

The board then went into committee on the question of the suggestions of the architect with reference to the various buildings. The various by Carter's Little Liver Pills. They not only relieve present distress but strengthen the stomach and digestive apparatus.

THE RACE, THE RACYLE AND THE RESULT.

Copyright Reserved.

The grey went up "The Race last."

And, speeding down the track, then passed A youth, who took and held the lead; He rode a white steed, for speed.

THE RACYLE.

"Did he feel sad? Not much, you bet; Did those behind him lead him to fret; A shout arose, "What does he ride?" Ten thousand voices held him tight.

A RACYLE.

"Beware! my son, he's not too rash; Beware! the awful strain and crash; This was the veteran's kindly hint; The youth replied, "They never fail, THESE RACYLES."

"Oh, stay," the maiden said, "I'll like To read the name upon his side; Most certainly," the youth replied; "Tis as I thought the maiden cried, A RACYLE."

There in the twilight light they lay; The vanquished champions of that day; No chance had they to win a race; With bikes not built to keep the pace, WITH A RACYLE.

MORAL.

If I had a "bike" and I wouldn't go, I'd think I'd sunnily, no more; I'd sell it cheap to some "wise guy;" And then, you bet, I'd go and buy.

Grand Jury

! Presentment

Important Recommendations Regarding Several Matters of Public Interest.

Necessity of New Bridge at Point Ellice—The As. sizes Closed.

The spring assizes closed yesterday after one of the shortest sessions on record. The docket had been cleared on the day previous, so that yesterday's session was held only for the purpose of receiving the grand jury's presentment.

On the opening of court at 11 o'clock a.m., Mr. Roland Stuart, foreman of the grand jury, presented the following:

To His Lordship, the Honorable Mr. Justice Walker, Presiding Justice:

Your Lordship: We, the grand jury, duly empaneled and sworn, beg most respectfully to make the following presentment:

1. We congratulate Your Lordship upon the exceedingly light docket, and are pleased to see that there are no very serious offences.

2. We beg to inform you that we visited the city lockup, which we find altogether inadequate, and would recommend that larger premises be provided, more particularly with a view to separating the male from the female occupants, and that proper ventilation be provided, as at present none exists.

We strongly recommend that a police patrol wagon be procured immediately.

3. Point Ellice Bridge.—We inspected this bridge, and are now more strongly convinced than ever that the present structure is a standing disgrace to the city, and a menace to the public safety; and we recommend that steps be taken at once to provide through the proper channels the necessary funds for the construction of a new and permanent steel bridge, so that the city of Victoria may never again be called upon to witness such a catastrophe as that which occurred in 1896, and cost money enough to build several bridges in addition to the loss of some sixty valuable lives.

4. Jail.—We next visited the jail, and wish to express our satisfaction at the cleanliness and general maintenance of the institution.

5. Reformatory.—We visited the reformatory, and having found the accommodation totally inadequate and unsatisfactory, we are very glad to know that an appropriation has been made for a new structure.

6. In accordance with the request contained in the petition which Your Lordship handed to us, we inspected the Johnson street racine, and are of opinion that it is a public nuisance, and a threat to health; and in view of the fact that such an existing evil can be eradicated for a comparatively small expenditure, we recommend that the proper authorities be urged to see that the nuisance be remedied forthwith.

We have pleasure in acknowledging the attention and courtesy shown us by the officers of the court, and by the officials in charge of the various institutions visited by us.

All of which is submitted on behalf of the grand jury.

(Sd.) ROLAND STUART,

Foreman.

After the reading of the presentment, the learned Judge expressed his pleasure with the practical nature of their report, which contained valuable suggestions on several matters of public interest. He would have much pleasure in forwarding the report to the Hon. the Provincial Secretary.

He congratulated the grand jury on the efficient manner in which they had discharged their duties, which at this time, he was happy to say, were not onerous. He thanked them for the compliment, conveyed in the concluding paragraph, to the officials of the court. It was especially gratified that it was a sense of its own future possibilities with an energy which might well be emulated by some of the wealthier Canadian provinces. For some time past they have had a special commissioner in this country in the person of Mr. W. A. Young, who by means of lectures and a press campaign, has done a great deal to make the province better known. That his work has not been without effect may be judged from the fact that by a recent bill he sent between twenty-five and thirty settlers to the province, the majority of whom had a little capital and some very considerable amount. Since then further batches of settlers of a first-class type, a few with comfortable incomes, have been sent out. To further assist this movement a no scheme has been devised. Mr. Hickman, on behalf of the Government, has made arrangements with the Farmers' Union to issue tickets to intending settlers at £17 17s. first-class, and £12 second-class, between London and St. John. When the settlers arrive in St. John they will be assisted by the Government officials in every possible way in seeing the best and most important portions of the province. Of course, the arrangement is not meant to be used by ordinary holiday-makers, but at the same time it is difficult to see how this can be prevented. Mr. Hickman tells me that he expects good results from the experiment. A good number of the better class of English farmers would, he thinks, go to Canada, if they were thoroughly satisfied as to the existing conditions. He would like to see the world, and New Brunswick should find her enterprise will be plentifully rewarded.

WHAT WOULD THEY GIVE?

It seems a waste of time to warn people against neglecting coughs and colds, but what would be the result of constipation and pneumonia give if their disease were only in its beginning. If it were only a cough or cold, they would be cured by a few doses of Dr. Chase's Lung and Throat Cure, the great remedy for all lung diseases, coughs and colds, and the reliable cough and cold tonic. If you have never tasted Jesse Moore's whisky, try it, and be convinced that it is the best whisky in the world.

JOSHUA DAVIES

AUCTIONEER

Further particulars with catalogues and cards of admission will be issued at a future date.

JOSHUA DAVIES, Auctioneer.

W. A. YOUNG DEAD.

He Was Manager at Northfield For Hamilton Powder Works.

Nanaimo, May 29.—(Special).—W. A. Young, for ten years manager of the Hamilton Powder works branch at Northfield, died at ten minutes to 8 o'clock this morning, after a short but painful illness. He was aged 54 years, a native of Ossipee, N. H., and well known as an expert chemist. No fatal accidents occurred in Northfield during his term. He was a staunch Free Mason, a charter member of Dorset lodge, Nanaimo, under whose auspices he will be buried on Friday afternoon. He leaves a widow and a son, Frank Young.

Wm. Morgan, an old pioneer of this province, died at midnight, aged 75 years. He was a native of Wales, and came to this country 30 odd years ago. He mined in Cariboo during the boom, and was once manager of a silver mine in Mexico, and also a coal mining boss in Cuba. He had been in Northfield 15 years, and was well known for his interest in Orange wool, and that order will bury him on Saturday. He leaves a wife and two grandsons.

Miss Caldwell, of New Westminster, has been appointed matron of the Marine hospital here.

W. A. Planta, a brother of A. H. Planta, married Miss Rawle of Seattle, there on Saturday.

Owing to the miserably poor attendance at the Knicker Quartette concert to-night, Manager Lucas announced to the audience there would be no concert, and the money was refunded at the door.

Langner and weakness, due to the depleted condition of the blood, are overcome by Hood's Sarsaparilla, the great vitalizer.

NEW BRUNSWICK ENTERPRISE.

Steps Taken to Encourage Immigration from England.

The London correspondent of the Montreal Star says:

New Brunswick is awakening to a sense of its own future possibilities with an energy which might well be emulated by some of the wealthier Canadian provinces. For some time past they have had a special commissioner in this country in the person of Mr. W. A. Young, who by means of lectures and a press campaign, has done a great deal to make the province better known. That his work has not been without effect may be judged from the fact that by a recent bill he sent between twenty-five and thirty settlers to the province, the majority of whom had a little capital and some very considerable amount. Since then further batches of settlers of a first-class type, a few with comfortable incomes, have been sent out. To further assist this movement a no scheme has been devised. Mr. Hickman, on behalf of the Government, has made arrangements with the Farmers' Union to issue tickets to intending settlers at £17 17s. first-class, and £12 second-class, between London and St. John. When the settlers arrive in St. John they will be assisted by the Government officials in every possible way in seeing the best and most important portions of the province. Of course, the arrangement is not meant to be used by ordinary holiday-makers, but at the same time it is difficult to see how this can be prevented. Mr. Hickman tells me that he expects good results from the experiment. A good number of the better class of English farmers would, he thinks, go to Canada, if they were thoroughly satisfied as to the existing conditions. He would like to see the world, and New Brunswick should find her enterprise will be plentifully rewarded.

W. T. HARDAKER

THE AUCTIONEER

FRIDAY, MAY 31st AT 2 P. M.

Parlor, Dining Room Bedroom and Kitchen Furniture

Also GARDEN TOOLS, 13 BOXES OF GOOD PRIZES, FINE FAMILY CARRIAGE, etc.

No reserve. W. T. HARDAKER, Auctioneer.

A CLOSED CHURCH

Whose Office Bearers Still Draw Comfortable Salaries.

From London Leader.

Parish clerk drawing £10 a year. Sexton drawing £30 a year. Organ blower drawing £12 a year.

This is not a bad salary list for a church which has been barred and bolted for ten years. Yet it is no myth, according to a letter from Mr. G. V. Neatby, printed in the City Press. The church in question, Mr. Neatby told a Morning Leader representative yesterday, is St. George's, Bedford lane, and the rector who has been drawing £12 a week for services in a closed house of worship is no less a person than Canon McCall; the other overworked functionaries of the church need no special mention.

According to Mr. Neatby, the canon performed his duties actively enough up to the year 1901. Then the roof of the church was suddenly discovered to be unsafe. The Bishop of London (Dr. Temple) ordered the church to be closed, and appointed a commission to inquire into the advisability of a union with St. Mary at Hill and St. Andrew Hubbard. This scheme fell through, however, and St. George's has consequently remained closed till this day.

The church has an interesting history, says The Leader informant. In the first place, it is one of the score and more churches built by the immortal Wren, and still standing in great number have been taken down.

Secondly, it was constructed out of the scanty funds of the parishioners, who had suffered untold loss in the "Great Fire." Mr. Neatby therefore wants the church to be restored and reopened for service. Given the correctness of his story, the spectacle of this city church, closed for ten years and forgotten, because the roof became unsafe one day, is strange not to say comical.

FILL OR ABOLISH.

From Military Gazette.

It is now some 10 months since Lt.-Col. F. G. Stone, R. A., took his departure from Canada, after resigning the position of inspector-general of artillery, a position worth \$3,200 per annum, that was made for him at the urgent request of Major-General Hutton, at that time D. O. C. The reason given for calling in the services of an outsider—not a member of the Canadian forces—was, it was understood at the time, on account of there not being a member of the Canadian militia capable of satisfactorily performing the duties.

Since that time, however, things have changed to a considerable extent, and it is now admitted that Canadian gunners able to hold their own with any that Great Britain can produce. There are a number of officers in the permanent force who are perfectly capable of filling the position, and if it is not intended to abolish it, there are many who think that the time is ripe for appointing some qualified Canadian to the place, that is, if the intention is to in any measure encourage the men who have spent their lives in the service of the Dominion. The feeling is rapidly growing that Canada is not to stand on her own feet and that the day for importing British officers to fill all the "fat" offices has passed.

Women with pale, colorless faces, who feel weak and discouraged, will receive both mental and bodily vigor by using Carter's Iron Pills, which are made for the blood, nerves and complexion.

Too Many Lilies!!

For one week, big spikes of Bermuda Lilies at 25 cents each.

EDW. ALEX. WALLACE, Inverlathish Nursery.
